Media Compatibility List

October 2009

Version 1.0

About this Document

This document details the paper & media that are compatible with this machine series following testing conducted by Canon Inc.

Canon Europe and Canon Inc. have made the media approval procedure. According to the Procedure (mainly for uncoated paper), when necessary Canon Giessen Paper Lab[CINC authorized test lab for EMEA region] will test those media required from the Canon Branded media range and confirm that they have the same quality/performances as determined in CINC approval process.

Also, on the basis of these results other papers & medias within the Canon branded media range can also be assumed to have met the necessary standard for inclusion in approved range with this device.

Updates of this media list will be given as and when new items are added.

The media list is shown for information purposes only.

Canon Europe Ltd 2009

Contents

Described below is the contents list for this document.

Contents	4
Paper Sizes.....	4
Envelope Compatibility.....	4
Paper & Media Compatibility	
a) Canon Branded Media Approved By Canon Inc.....	5-6
c) Other Media.....	7

Paper Sizes

Paper size "A3+" and "SRA3" definition

A3+ = 305 x 457 mm = 12" x 18"

SRA3 = 320 x 450 mm

Envelope Compatibility

This machine series supports the following Envelope size fed from the Stack Bypass unit.

Suitable Envelope Size

Com10 , Monarch , DL , ISO-C5 , ISO-B5

**Envelopes should be fed Face
Up in the stack bypass**

Use of the Multi Drawer Unit

If the Multi Drawer Unit is used it is not possible to use the Stack Bypass Unit. This means that Envelopes are then not able to be printed with this configuration.

a) Canon Branded Media Approved by Canon Inc
