

Document scanning made easy!

ezeScan 
transforming paper into knowledge™

Simplified back scanning solutions

Take the hard work out of scanning and indexing your massive backlog of stored documents. Let EzeScan drive your production document scanner and use batch scanning technology to output high quality images. Automate where possible the indexing process using BCR and OCR technologies so you can continue scanning the next batch of documents.

Invoice processing automation

Say goodbye to data entry and use EzeScan to capture supplier invoice data automatically. Use EzeScan to review and correct any exceptions, validate data using database look ups and export output to customizable data files, or upload to your finance system.

Application and Survey forms data extraction

Automate the processing of application and survey forms using EzeScan forms data capture technology. Output data in a range of file formats or upload into many common databases. Use EzeScan's simple interface as an out of the box solution to define templates, data extraction zones and apply workflow rules.

Mailroom and correspondence automation

EzeScan provides the fastest and most cost effective method to scan and index unstructured documents like your incoming mail. Configure your indexing profiles for different document types or document workflows. Documents and data can be output to many common EDRMS systems, databases or network locations.

Highly integrated EDRMS imaging solutions

EzeScan provides out of the box integration with many popular EDRM systems. Scanned and imported documents can be indexed using EzeScan's unique power indexing interface. Browse your EDRMS to select or validate metadata, capture data on the fly, upload your documents, populate metadata and trigger automated document workflows all in one simple process.

scan · capture · automate · integrate

The EzeScan Advantage

EzeScan provides fast, cost effective business solutions including simplified back scanning, automation of invoice processing, forms data extraction, mailroom/correspondence automation and highly integrated EDRMS imaging. Compatible with all major scanners and with thousands of installations in Australasia, North America, EMEA and the UK, EzeScan is your ideal batch-scanning solution.

Who is Outback Imaging Pty Ltd?

Outback Imaging is a research and development company specialising in document capture. EzeScan is Outback Imaging's flagship document scanning product suite. Our products enable clients to substantially reduce the cost of deploying document processing solutions for unstructured, semi structured and structured (forms based) hardcopy documents.
